ZyQuest Names New Director of Service Delivery

De Pere, WI – ZyQuest, Inc., a full-service information technology (IT) consulting company based in Northeast Wisconsin, has named Kyle Thomas the new Director of Service Delivery.

Thomas, who joined ZyQuest five years ago as an account manager, will be responsible for recruitment, both locally and nationally, and fulfillment services for all job orders in Green Bay.

In addition, Thomas will manage ZyQuest's partnerships with third party resources – IT vendors in other parts of the country. Occasionally, a local client may require the services of an IT consultant with a very unusual skill set. If ZyQuest doesn't have such a consultant available, ZyQuest can call on these third party vendors to find the needed expert.

When asked how he sees his role at ZyQuest, Thomas said that he strives to do whatever it takes to keep ZyQuest the very desirable workplace that its employees now enjoy. Thomas's other major goal is to help make ZyQuest the vendor of choice for its clients and to help ensure that the company continues to be successful. "That means wearing multiple hats and never saying something's not in my job description," he said.

ZyQuest President and CEO Allan Zeise commented that Thomas brings his understanding and experience in professional IT recruiting and fulfillment services to the new position. Added to those assets are Thomas's established network of IT professionals, general business savvy, engaging personality, and personal integrity.

Before joining ZyQuest, Thomas worked for Schneider National as the Production Control Manager in their IT department. He received a B.S. degree in Data Processing from the University of Wisconsin – Superior.

A native of Superior Wisconsin, Thomas now makes his home in Ashwaubenon with his wife and two children.

ZyQuest, Inc., is a full-service information technology consulting company offering a broad range of IT services, including staff augmentation, project management and outsourcing, Internet solutions, technical education and SAP services. While ZyQuest has focused on serving clients in the Green Bay-Fox Valley area during its twelve years

in operation, ZyQuest also provides IT services to customers both nationally and globally.
